HOME HEALTH

The Rio Concho Terrace does not provide home health services. However, you can visit with our resident liaison and she will assist you in gaining the services you need. Home health care is a wide range of health care services that can be given in your home for an illness or injury. The patient must be homebound as required by the payer. (The VA is less strict with the homebound requirement). The patient must require skilled qualifying services. The care needed must be intermittent. The care must be a medical necessity.

Doctor's orders are needed to start care. Once your doctor refers you for home health services, the home health agency will schedule an appointment with you. Home health will talk to you about your needs and ask you some questions about your health. www.medicare.gov
